Year 5 Homework – 19.11.21

Maths This week, the children have been learning about finding the perimeter of shapes. We have been looking at rectilinear shapes. Please find the perimeter of the shapes by either counting the length of the squares around the sides of the shape or adding up the length of the sides.
Times tables- This week my score was _____/120.
Spellings- **This week my score was _____/10** Please learn the spellings provided in your reading diary. You can also access them using spelling shed and play games!
