

End of Key Stage 2 Assessment Scores

Understanding End of Key Stage 2 Assessment Scores

Since 2016, end of key stage 2 test scores have been reported as 'scaled scores'. The tests are externally marked and returned to schools online. Each pupil who has taken the tests will receive a raw score which is converted into a scaled score to determine whether they have reached the national standard or not. A child awarded a scaled score of 100 or more is judged to have met the 'national standard' in the area judged by the test.

Range of Scaled Scores

The range of scaled scores available for each test is the same.

- The lowest scaled score that can be awarded is 80 and the highest is 120.
- A pupil awarded a scaled score of 100 or more has met the expected standard in each test.
- A pupil awarded a scaled score of 99 or less has not met the expected standard in the test.

As tests and teacher assessment (TA) are different forms of assessment, they do not report using the same scale. As a result, there are no scaled score equivalents to the TA concepts of 'working towards the expected standard' or 'exceeding the expected standard'. Teacher assessment scores are used to calculate the attainment of pupils in writing.

Shobnall Primary & Nursery School KS2 Attainment Data 2018-2019

2019 Subject	Average scaled score nationally	Average scaled score for Shobnall Primary & Nursery School	School Performance Comparison	% of pupils meeting the expected standard at Shobnall Primary & Nursery School	% of pupils meeting the expected standard in Staffordshire	% of pupils meeting the expected standard nationally
