27th January 2023

"Lead from the heart, not the head."

Dear Parents/Carers,

It has been another busy week for all of our pupils, teachers and support staff with a wide range of activities taking place in and out of classrooms. Myself, and a number of subject leaders, have spent some considerable time this week talking to pupils, observing lessons and looking through children's books in order to monitor the quality of our curriculum across the school. We have been very impressed with what we have seen and heard, as have several special visitors we have shown round too!

Please could we remind parents of the impending proposed carriageway patching works due to commence on **Monday 30 January 2023**. We know this will have an impact on our community with the school being located so centrally to where this work is due to be carried out. Please refer to the newsletter dated [6 January 2023](#), available in our newsletter archive, where you will find details of which parts of the road will be affected and when, in order to help you plan your journey to and from school during this time.

Next week, **Year 6** are making their way to **Laches Wood** and will be staying from **Monday 30 January** until **Friday 3 February**. Please look out on Twitter to see how they are getting on! I know the children are really looking forward to their stay and it promises to be a fantastic week for them!

With **National Storytelling Week** starting on **30 January 2023** (more information below), this has been the perfect way to find out more about children's likes and dislikes when it comes to reading! We would like to thank you for your support with reading at home, as this really helps support the children with becoming confident readers and developing a passion and enjoyment for books! Please keep checking our weekly newsletter and Twitter for recommended reads and further ideas of how you can support your child with reading at home!

As you will know from the news and from last week's newsletter, the National Education Union (NEU) has announced **national strike action**. The first of these scheduled dates is Wednesday 1 February 2023. Whilst some schools have had to make adaptations to ensure that the school can be kept open for as many pupils as possible,

12 Top Tips for BUILDING CYBER RESILIENCE AT HOME

As a society, we're increasingly using technology and tech services in the home. Digital assistants which can adjust the heating or turn lights on and off; streaming services for shows and movies on demand; games consoles; smart speakers; phones; laptops ... the list goes on. As we introduce each new gizmo to our homes, however, we increase the level of threat from cyber criminals. It's essential, therefore, that we learn to become more cyber resilient in relation to the devices and digital services that the people in our household use.

WHAT IS 'CYBER RESILIENCE'?

Cyber resilience focuses on three key areas: reducing the **likelihood** of a cyber attack gaining access to our accounts, devices or data; reducing the **potential impact** of a cyber incident; and making the **recovery** from a cyber attack easier, should we ever fall victim to one.

1. PASSWORDS: LONGER AND LESS PREDICTABLE

The longer, less common and predictable a password is, the more difficult it becomes for cyber criminals to crack. The National Cyber Security Centre's 'three random words' guidelines are ideal for creating a long password which is easy to remember but hard to guess.

2. AVOID RE-USING PASSWORDS

When you use the same password across different logins, your cyber resilience is only as strong as the security of the weakest site or service you've signed up for. If cyber criminals gain access your username and password for one site or service, they'll definitely try them on others.

3. USE A PASSWORD MANAGER

A good way to juggle different passwords for every site or service you use is to have a password manager. This software stores all your passwords for you, so you simply need to remember the master password. LastPass, Dashlane, 1Password and Keeper are all excellent password managers.

4. BACK UP YOUR DATA

Keep a copy of your data using OneDrive, Google Drive or another reputable cloud-based storage solution. If it's extremely important or sensitive information, you could even decide to keep more than one back-up version – by saving it to a removable USB drive or similar device, for example.

5. ENABLE MULTI-FACTOR AUTHENTICATION (MFA)

Multi-factor authentication is where you need access to your phone (to receive a code, for example) or another source to confirm your identity. This makes it far more difficult for cyber criminals to gain entry to your accounts and your data, even if they *do* manage to get your username and password.

6. CHOOSE RECOVERY QUESTIONS WISELY

Some services let you set 'recovery questions' – such as your birthplace or a pet's name – in case you forget your password. Take care not to use information you might have mentioned (or are likely to in future) on social media. More unpredictable answers make cyber criminals' task far harder.

7. SET UP SECONDARY ACCOUNTS

Some services provide the facility to add secondary accounts, phone numbers and so on to help with potentially recovering your account. Make sure you set these up: they will be vital if you're having trouble logging in or if you're trying to take back control of your account after a cyber attack.

12. STAY SCEPTICAL

Cyber criminals commonly use various methods, including emails, text messages and social media posts. Be cautious of any messages or posts that are out of the ordinary, offer something too good to be true or emphasise urgency – even if they appear to come from someone you know.

11. KEEP HOME DEVICES UPDATED

Download official software updates for your household's mobile phones, laptops, consoles and other internet-enabled devices regularly. Security improvements and fixes are a key feature of these updates – so by ensuring each device is running the latest version, you're making them more secure.

10. CHANGE DEFAULT IOT PASSWORDS

Devices from the 'Internet of Things' (IoT), such as 'smart' home appliances, are often supplied with default passwords. This makes them quicker to set up, but also less secure – criminals can identify these standard passwords more easily, so change them on your IoT devices as soon as possible.

9. CHECK FOR BREACHES

You can check if your personal information has been involved in any known data breaches by entering your email address at www.haveibeenpwned.com (yes, that spelling is correct!). It's useful if you're worried about a possible attack – or simply as motivation to review your account security.

8. KEEP HAVING FUN WITH TECH

Consider our tips in relation to the gadgets and online services your household uses. Protect yourself and your family, and don't let the bad guys win: devices are not only integral to modern life but also a lot of fun – so as long as you keep safety and security in mind, don't stop enjoying your tech.

Meet Our Expert

Gary Henderson is the Director of IT at a large boarding school in the UK, having previously taught in schools and colleges in Britain and the Middle East. With a particular interest in digital citizenship and cyber security, he believes it is essential that adults and children alike become more aware of the risks associated with technology, as well as the many benefits.

A38 Fradley to Barton combined maintenance work

Working on behalf of

We'll be carrying out essential maintenance work on the A38 between Fradley and Barton. Our work will include targeted resurfacing, upgrading safety barriers, replacing street lighting and renewing road markings. The completed work will provide a smoother carriageway which will remain well-lit and safe for road users.

Our work is planned to start on Monday 6 March 2023, and we expect to complete by autumn 2023. To reduce disruption to the road user, local residents and the economy, we'll work within phased closures of the A38 and service roads, including Rykneld Street and Burton Road.

We apologise in advance for any inconvenience or disruption to those living close to the work. We'll make every effort to carefully manage noise levels and additional lighting to minimise the impact.

Public information events

In January 2023, we'll be holding public information events about the work we'll be carrying out along the A38. During the events, the project team will outline the details of the scheme. We'd like to invite you to come along to find out more about the scheme and give you an opportunity to ask any questions you may have. We're holding face-to-face events on:

- Thursday 19 January 2023, 11am to 7pm
- Friday 20 January 2023, 9am to 3pm

Location: Alrewas Royal British Legion, 58 Rykneld Street, Alrewas, Burton-on-Trent, DE13 7AX.

In addition to this, we've appointed a Public Liaison Officer, Neil Hallam, who will be your point of contact during the works. Neil's contact details are included in this letter.

24 hour helpline during our works 0333 012 9132

Public Liaison Officer: Neil Hallam

Email: neil.hallam@carnellgroup.co.uk

M: 07970 638825

For more information about the improvements, upcoming roadworks and temporary traffic management please scan the QR code to visit our website.

If you would like to receive a weekly traffic management bulletin for our package of work on the A38, please subscribe to our mailing list by emailing:

Shobnall Primary & Nursery School will be unaffected and there will be no impact from strike action. Please send your children to school as normal.

As always, we hope that you have a great weekend! We look forward to seeing you all again on Monday! Enjoy!

National Storytelling Week – 30 January to 6 February 2023

We celebrate stories in every form during National Storytelling Week, which takes place from January 30 to February 6 this year. This engaging event is celebrated in schools, clubs, museums, spoken word venues, and various other places. Like its name, National Storytelling Week encourages people of all ages, genders, and cultures to indulge in stories new and old and participate in this centuries-old form of entertainment.

Finding the time to read with children can often be difficult, especially with the

increase in technology. However, story time is an important part of a child's life, therefore, as teachers and parents, setting up a regular storytelling time ensures children can let their imaginations go wild! As a school, we will be promoting the power of storytelling next week (see Twitter for updates) and if you have any exciting ideas to share of things you do at home, please let us know!

NSPCC Number Day – Friday 3 February 2023

We are delighted to be supporting the NSPCC by taking part in **Number Day** on **Friday 3 February 2023**. Number Day is a great way to make maths fun and bring about a positive, 'can-do' attitude towards it. We are having a fun day of maths activities and we will be taking part in **Dress up for Digits**. Pupils are asked to wear an item of clothing with a number on it (e.g. football shirt, cap, netball shirt or even a onesie!) Or, get even more creative by dressing in a maths or numbers theme.

To help raise money for the NSPCC, we are asking for a suggested donation of £1, and we'd love everyone in the school to take part in this special event.

You can find out more about the NSPCC's work at nspcc.org.uk. We look forward to celebrating Number Day with the children on Friday!

Children's Mental Health Week – 6 to 12 February 2023

We are approaching Children's Mental Health Week where the staff and pupils will be taking part in many activities in school to promote positivity.

There are many ways parents are able to support their children to maintain a positive wellbeing. Please click on the link below to access the videos and support.

[Parents and Carers - Children's Mental Health Week \(childrensmentalhealthweek.org.uk\)](https://childrensmentalhealthweek.org.uk)

In association with

Sainsbury's

'My School Fund' Initiative

We announced some time ago that Shobnall Primary & Nursery School had joined the My School Fund initiative. This innovative scheme allows for us to be able to boost our school's budget with your help. So far, our community of parents and teachers have helped the school to generate **£50.44** worth of rewards!

How does it work?

Parents, guardians and carers can sign up to the scheme for free and start earning cashback on the things they buy in participating retail stores, including Sainsbury's and Argos. As you spend, you'll receive 2% cashback in the form of eGift vouchers that can be redeemed in participating stores. By linking your spend to our school on the My School Fund website we'll also earn 1% cashback on your spend.

Add that all up across our school's network of families and together we can all make a big difference!

How to get involved

Visit myschoolfund.org to register for free and link to Shobnall Primary & Nursery School. From there, everything you spend in participating stores will go towards helping boost our budget, plus your own!

Sign up today at myschoolfund.org.

Register your Appliance - Staffordshire Fire & Rescue Service

Staffordshire Fire and Rescue Service have asked us to share a Community Safety message out regarding 'Registering My Appliance'.

This gives residents the opportunity to register new and old electrical domestic appliances to keep up to date with and safety recalls on products you may have in your home. This can be done by following this link - <https://www.registermyappliance.org.uk/registration/>

There is also an attachment to this message regarding this.

Upcoming A38 Closures

In addition to the disruption starting along Shobnall Road next week, we thought it pertinent to inform you of upcoming plans for closures along the A38.

Essential maintenance work is due to be carried out on the A38 between Fradley and Barton. The work will include targeted resurfacing, upgrading safety barriers, replacing street lighting and renewing road markings. The completed work will provide a smoother carriageway which will remain well-lit and safe for road users.

The work is planned to start on **Monday 6 March 2023** and is expected to be complete by autumn 2023. To reduce disruption to the road user, local residents and the economy, work will be carried out through a series of phased closures of the A38 and service roads, including Rykneld Street and Burton Road.

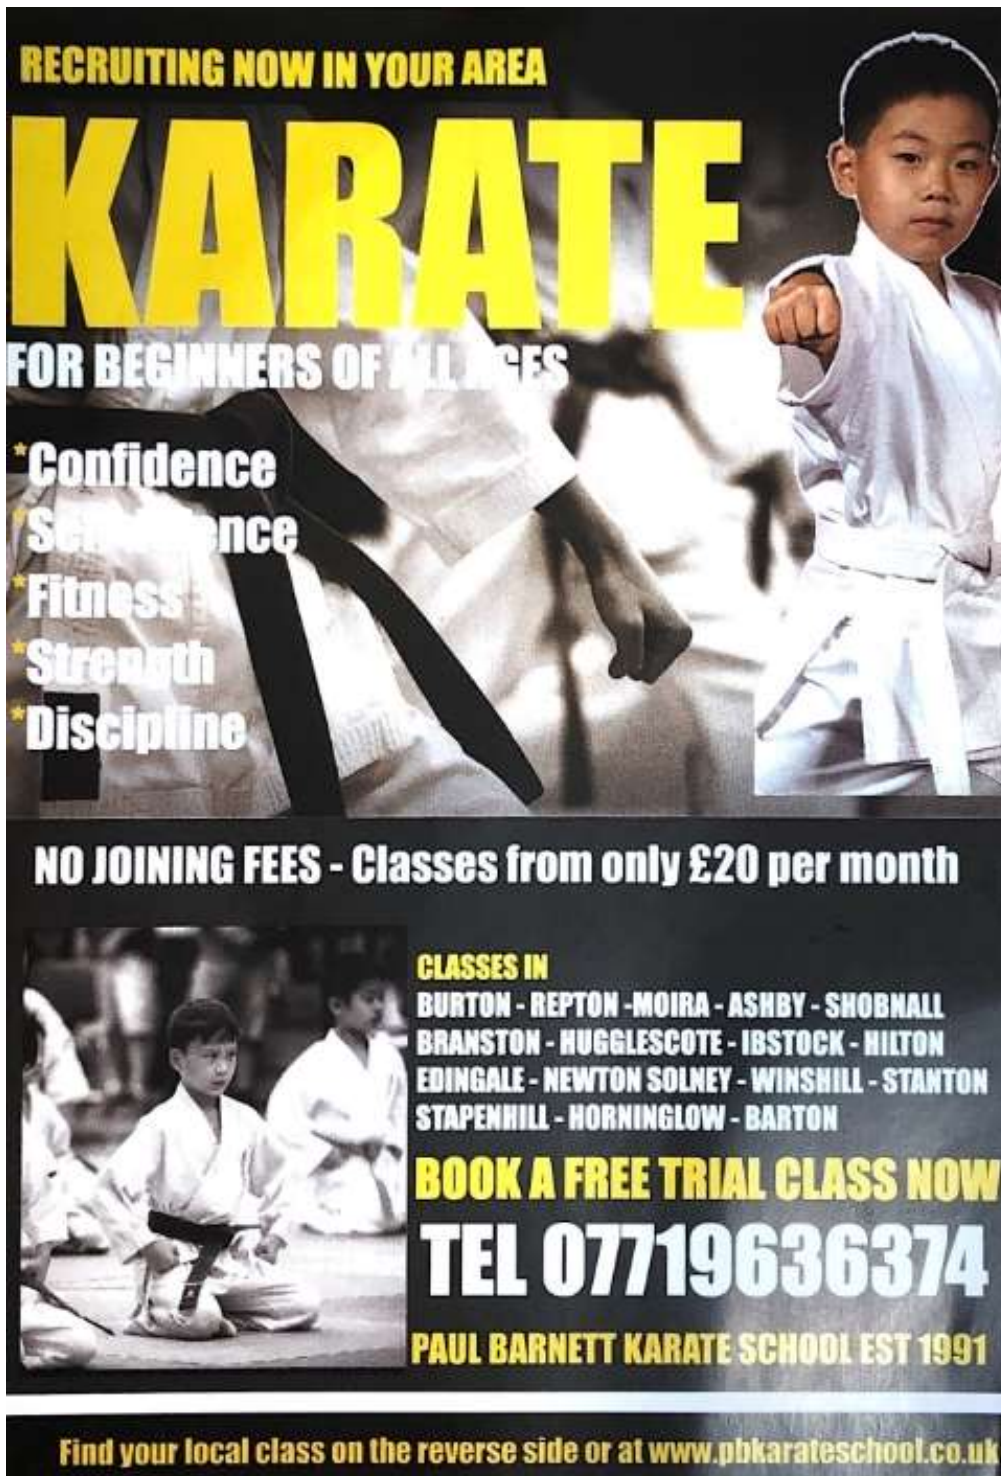

Essentially the full closure of both carriageways North and Southbound will be night closures (between 8.00pm to 6.00am) in certain weeks. Whilst this may have a slight impact for some, the reduction of the carriageway from two to one lane at all other times is likely to have more impact.

Please find attached at the end of the newsletter a leaflet from National Highways about the proposed work. The leaflet also provides contact details of the Public Liaison Officer, Neil Hallam. We will, of course, let you know if any further information comes to light. You may also find the link to the National Highways website below useful:

FREE Uniform!

Remember, we have FREE uniform that is available for anyone who needs it, via our donation service. There is a box situated outside the school office for any parents who have old items that they wish to donate. Please could we ask that these are cleaned and in good condition before placing in the box! Amy Roobottom continues sorting, collating and distributing this. If you wish to contact Amy to ask what is available that you might be in need of, please contact her via amyroobottom@outlook.com.

Times Tables Rock Stars

As part of NSPCC Number Day, key stage 2 children are invited to take part in a special [Times Tables Rock Stars](#) challenge! This will run from Monday 30 January to Friday 3 February. The children have been enrolled and will be able to log-in from then! Good luck, everyone!

Online Safety Tips

In the last couple of decades, the volume of online traffic has increased exponentially – but, by and large, people's awareness of the accompanying risks hasn't grown along with it. To illustrate the scale of the issue, consider this: a report by the Internet Crime Complaint Centre found that, in the US during 2020, there was a successful cyber-attack every second. Yes: every second.

Criminals continue to find new and devious ways to attempt to hijack our online transactions and harvest our private information. To them, the smart devices that many of us now use as standard at home are simply a convenient back door into our lives – and our networks.

In the guide you'll find tips on a number of potential risks such as how to use a password manager, how to back up your data and how to check for breaches.

We would also like parents and carers to note that **Safer Internet Day 2023** will be celebrated on **7 February** with the theme 'Want to talk about it? Making space for conversations about life online'. Safer Internet Day is celebrated globally in February each year to promote the safe and positive use of digital technology for children and young people, and to inspire a national conversation about using technology responsibly, respectfully, critically, and creatively. Coordinated in the UK by the UK Safer Internet Centre, Safer Internet Day is celebrated in over a hundred countries coordinated by the joint Insafe/INHOPE network, with the support of the European Commission, and national Safer Internet Centres across Europe. Click on the link below for more information, useful guides and resources:

<https://saferinternet.org.uk/guide-and-resource/parents-and-carers>

Giant Carbon Bubble Tour!

We are going on tour with our 10-metre bubble in the summer! The giant bubble is a visual representation of 1 tonne of carbon emissions. On average each person in Staffordshire creates 5 tonnes of carbon per year.

Small changes to reduce your carbon footprint:

1. Reduce your energy consumption by switching off lights and electronic appliances when not in use.
2. Choose sustainable transport options such as public transport, cycling or walking whenever possible.
3. Try to reduce your waste by recycling and composting.
4. Buy local products whenever possible to reduce your carbon emissions from transportation.
5. Avoid using 'single use items' like plastic bags and plastic bottles. Instead opt for reusable items.

Follow on social media to keep updated when the bubble will be at a town near you.

Hot Lunch Options – 30 January to 3 February 2023

Please note that Option 1 on Thursday 2 February 2023 has changed to beefburgers.

WEEK 1	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
MAIN DISH	Vegetarian Korma with 50/50 rice	Pork sausage with creamy mash potato & gravy	Roast turkey with mashed potato & gravy	Spanish chicken in a tomato sauce with 50/50 rice	Crispy fish fingers with chunky chips

SHOBNALL SHOWCASE!

Let's have a sneaky peek as to what has been going on in our classrooms this week...

Nursery

This week in nursery we have begun our new class book, 'The Gingerbread Man'. The children have loved reciting the repetitive vocabulary in the story and have used their imagination and creativity to build some vehicles to help the Gingerbread Man cross the river safely! We have also been busy decorating

our own gingerbread man and have been practicing making straight and diagonal lines as well as drawing simple shapes to make a cottage in our drawing club.

Reception

We had an exciting start to the week in reception as we continued storytelling with our helicopter stories. It was also fantastic bringing them to life in the classroom with some wonderful acting!

Science was lots of fun as we developed our understanding of forces further by exploring a variety of scenarios and made some fantastic predictions.

On Wednesday we had a tasty time chopping and slicing some wonderful fruits as part of our book focus on 'Handa's Surprise' Miss Alexander even managed to find us some guava! We all tried a variety of fruits and there were lots of thumbs up.

"It's a bit salty and crunchy. I didn't know it was going to taste like that!" (Alfie trying passion fruit)

"It's a bit like a banana, its very soft." (Riley trying avocado)

"Ohhhh that's a bit sweet for me it's making my eyes close!" (Daisy trying pineapple)

"I love oranges they have all the juicy bits inside." (Mia-Louise)

"I have this with my grandad, it's a bit tough to cut but it's very soft inside. It's so yummy." (Lincoln trying mango)

We completed some observational drawings of fruits by looking carefully at the different patterns and textures. Then used our creativity to complete our own representations using a variety of media.

We are certainly enjoying learning about food glorious food!

To finish the week off we joined in with a super jigsaw session and thought carefully about challenges and never giving up. This led us onto thinking about goal setting which we will explore further next week.

Year 1

This week we have been very busy! Year 1 have been working hard to write a recount of 'Pirates Week'. I am so proud of their work and they are too! We have been exploring the body in Science and in History we have learnt about Grace Darling and her significance. A fantastic week Year 1! Keep it up!

Year 2

Money, money, money has been Year 2's focus in maths this week. The children have picked up the concept of counting different amounts of money, as well as writing given amounts of money in pounds and pence really quickly. They have thoroughly enjoyed using 'play' money in class to solve problems, with lots of children wishing the money was real so they could be rich! In English, Year 2

finished their unit of learning on 'Cinderella' by writing up their own version of the story. All of the children have written FANTASTIC stories based on the original and have been able to include time conjunctions, adjectives and 'show not tell'. Ranging from 2 to 6 pages long, Year 2 have truly outdone themselves and should be VERY proud. In the afternoons, Year 2 have been exploring their new topic in science around life cycles, with the first lesson based around a human life cycle and the stages of life. An activity within this included estimating ages, which made some staff feel very good about themselves and others wishing they had started to use anti-aging cream earlier!

Year 3

Year 3 has had a very productive week, especially in their English lessons. They have been learning how to write their own version of a cave challenge story and we are so proud of what they have written! In maths, the children have been looking at how to multiply a two-digit number by 10. We have also started our new topic on 'Magnets and Forces', which the children thoroughly enjoyed being able to test. We finished off the week learning all about the Bronze Age. Well done Year 3!

Year 4

Wow! What another great week that we have had in Year 4! In maths, the children have been looking at applying their knowledge of multiplication and division facts to answer a variety of problem solving questions. Although some of the children found this difficult, it was great to see that resilience was shown by all the children throughout the task. In English, we have started our new unit of writing where we have been investigating the features of a persuasive piece of writing. In Science, the children have set up an experiment to find out if evaporation happens at the same rate in different temperatures. Each morning, the children have been going round the school and measuring the volume to identify how much water has been evaporated. Another great week Year 4!

Year 5

Year 5 have enjoyed the beginning of the week when they were investigating water resistance. The pupils changed the shape of modelling clay and measured how quickly it dropped to the bottom of the water. The pupils changed the shape of the modelling clay to find out the impact of streamlining the clay.

Year 5 have made a great progress in their new French topic - French Monster Pets! They have made presentations in French to describe their monster mash-up creatures. The children have learnt about how to use nouns and adjectives within their writing and understand where to place size and colour adjectives around a noun. Ask them at home if they can describe parts of their body in French.

The children have enjoyed finding evidence in The Lottie Project book to help explain their predictions. They are excited to read the next chapter and find out more about the characters Lottie, Charlie and Miss Beckworth.

The fractions topic in Maths has moved onto subtracting fractions with the same and different denominators. They are developing their own rules to remember what to do and when to find the answer.

In English, the children have started a new topic - instructional writing. We have introduced lots of books with recipes into our class reading shelves to promote the different ways recipes can be presented and to look for the features of instructional writing.

Year 6

This week seems to have been hectic. In Year 6 we started the week continuing to look at ratio, which we then later used when looking at similar shapes and scale factors of enlargement. In English, we pretended to be in the life of a chimney sweep where Miss Lord turned off all of the lights and made a pretend

chimney flue with the tables. She ordered us to 'climb' up the chimney and if we weren't going fast enough, she said she would light the pretend fire, just like Mr Fullbrook said in our English narrative 'Stuck'. This generated lots of ideas for us to use when writing our own narratives in a few weeks. I cannot wait to read the creative writing pieces the children produce. We studied Chinese New Year and loved finding out what animal's we were and what happens on each day of the 15-day celebrations. We cannot wait to go to Laches Wood next week. Check our school's twitter page to see what fun we will be having.

Reading Corner

This week's recommended read is for children aged 11+

Fritz and Kurt

Written by Jeremy Dronfield

The story of the two Kleinmann brothers was first told in the best-selling *The Boy Who Followed His Father into Auschwitz*, but this edition has been especially written for younger readers more like the age of the boys themselves and also contains some additional material discovered since the first publication.

Fritz and Kurt lived in Vienna and as Jews they were in terrible danger when the Nazis came. Fritz, the older brother, and his father do indeed get taken to Buchenwald as the concentration camp is newly developed and we are left in no doubt about the conditions they suffered both there and in subsequent camps. The careful attention to detail certainly gives a real insight into the realities of how the Holocaust progressed.

Meanwhile the family is trying to get the other children to safety. One sister did escape to a job in England and eventually papers are procured for Kurt to travel to the United States. For Kurt the trauma of leaving all his family behind to travel halfway across the world to a country with a different language and customs is considerable but the main focus of the story is on the plight of Fritz and his father. As the title of the adult novel indicates Fritz did indeed choose to follow his father on the transport to Auschwitz and to almost certain death, rather than be separated. The strength of their relationship is deeply moving and beautifully conveyed. The story of how they survived until war ended is completely remarkable and so although harrowing the book ultimately has a very positive and inspirational message about human resilience and courage.
