Please complete
homework by
Wednesday 24th April
2024.

This week in Nursery, the children have been thoroughly enjoying their new class book, 'Ten Seeds' and have been working hard completing a range of activities based on our story. They have been busy observing and noticing similarities and differences in sunflowers and have been eager to learn about plant growth.

For home learning this week, I would like the children to create their own sunflowers using resources found at home and from the garden. Whilst your child is creating the sunflower, encourage them to describe the different parts of the sunflower (seed, bud, petals, stem, leaves).

Be as creative as you can, using any media that you have available. Could you please bring your completed sunflowers into Nursery so that the children can share their work with the class.

Thank you for the continued support!

Many thanks,

Mrs Lukman
