

12.11.21

Focus: Mathematical
development

Please return homework by Wednesday 17th November

This week the children have enjoyed listening to the story 'My Mum and Dad make me Laugh' by Nick Sharratt, and have been spotting different patterns on a range of clothes, animals, on objects and in the environment. They were able to identify lots of spots and stripes! To continue our learning on pattern I would like the children to go on a pattern hunt at home. Can they identify patterns around them? You may need to give them some help by pointing out patterns on bathroom tiles, curtains, garden fences, items of clothing etc.

As always I would love to hear any comments your child makes.

Many thanks,

Mrs Farrington
