homework

Homework
Due:
Wednesday
17th April

This week the children have been exploring 3D shapes and used some great mathematical language to describe them, such as faces, vertices, edges, flat, curved.

To continue this, I would like your child to go on a shape hunt. You could do this around your home, outside the shops etc. Please encourage your child to discuss the different shapes they identify.

What do you notice about the shape?

What is the name of the 3D shape?

Which 2D shapes can you see within the 3D shape?

How would you describe the shape? Does it have a flat or curved surface? How many faces does it have?

Will the shape roll? Can you stack the shape?

As always please make comments and add photographs about your child's engagement with the activity via Evidence Me.

Many thanks and have a wonderful weekend,

Miss Alexander
