Listening & following  
instructions

**Please return homework by Wednesday 15th December**

Last week the children were introduced to the Commando Joe character 'Charlie Communication', where he had to listen very carefully and follow instructions to cross a river! This week the children have been following their own instructions to complete the class mission of crossing our own fast flowing river!

For home learning, I would like the children to continue to practice listening and following instructions, as the better your child is at doing this, the more involved they can be at Nursery. Ask your child to colour in the attached picture bit by bit by following instructions such as: "*Colour the boy's arm*" or "*Colour the girl's top*". It doesn't matter which colour is used and remember it is a listening game, not a colouring skills activity. Make sure you don't give extra clues by pointing.

**Too easy?** Give your child a challenge by asking them to colour two things. E.g. "*Colour the boy's top and eyes*". If your child knows the colour names add this to your instructions. E.g. "*Colour the girl's eyes blue*".

Many thanks,  
Mrs Farrington
