# 3

During this weeks maths adventures the children have been learning to sort objects in various ways.

I would like to reinforce this by sorting objects around your home. Begin by sorting objects into 2 groups.

How have you sorted them? By colour, shape, size texture etc?

Is there more than one way to sort your collection?

Can you sort your objects into 3 or 4 groups?

During the activity encourage your child to use the following vocabulary:

- match
- set
- same
- different
- compare
- group

- I have sorted the objects by \_\_\_\_\_.
- These are \_\_\_\_\_.  
These are not \_\_\_\_\_.
- These objects are the same because...
- These objects are not the same because...

Please make comments about your child's engagement with the activity via Evidence Me and include photographs.

Many thanks and have a great weekend!

Miss Alexander
