

Please complete homework by Wednesday 1<sup>st</sup> May 2024.

This week in Nursery, the children have been learning about how fruits and vegetables grow. They have learnt that some fruits and vegetables grow under the ground and some grow above the ground and on trees. They have enjoyed sharing what their favourite fruits and vegetables are during snack time when we eat our fruit!

For home learning this week, we would like the children to actively help in making a healthy smoothie. Not only will your child be practising their fine motor skills, but you can talk about the texture of different foods, likes and dislikes, healthy and not so healthy foods and you can also practice subitising!

Have fun making your smoothies.

Thank you for the continued support!

Many thanks,

Mrs Lukman
