

This week we have been learning about how to look after our teeth and had a visit from the dentist.

To continue and develop this important part of our oral hygiene I would like the children to complete the following activities:

Toothbrushing chart

Design a tooth character

Myth mouth and tooth truth sorting activity

They have also brought home a toothbrush and toothpaste along with some toothbrushing guidance.

Please complete by Wednesday 26<sup>th</sup> February. Comments and photographs can be added via ClassDojo messages.

Please send tooth characters and charts back into school.

Many thanks and have a fantastic half term break,  
Miss Alexander
