

NSPCC
Number
Day

This week I would like the children to take part in a skittles challenge to celebrate NSPCC Number Day.

Your child has brought home a small bag of skittles. I would like them to use these as part of a maths activity of their choice. This should be linked to something the children have previously learnt and could include:

- Matching and sorting
- Subitising
- Patterns
- Weight
- Shapes
- Pairs, odds and evens
- Composition of numbers- showing numbers in different ways
- One less
- One more

Please complete by Wednesday 12th February. Comments and photographs can be added via ClassDojo messages. **It is very important that photos are sent for this activity.** I am looking forward to seeing all the different ways we can use skittles to make our maths exciting. Try not to eat them before completing the activity!

Many thanks and have a wonderful weekend,
Miss Alexander
